

Ultimate Jukebox is a free easy to use PC Jukebox application. It is designed to turn your PC into a Jukebox and is the perfect Jukebox for your HTPC (Home Theater PC). Ultimate Jukebox scans your system for music files (OGG, Mp3, WAV, WMA), and will display them in an easy to use GUI, like a modern jukebox. It can run full screen with large fonts, has a queue and multiple playlist levels. Features include full control over fonts, colors & skins, album cover display, alarm clock, playlist creation, screen saver, support for untagged media files, party play mode (lock it down at parties!) and the power of Winamp! Requirements:  Pentium 1GHz, 128MB RAM, sound card & WINAMP Limitations:  The unregistered version of this software can only store 300 files in the music library and is limited to 30 days of trial use. Subscription based versions Ultimate Jukebox-Pro, a commercial version of Ultimate Jukebox, is also available from Intel. It includes some features not found in the open-source version of Ultimate Jukebox.
