## Auqio Sound Studio

Auqio Sound Studio is a professional audio recording and editing tool designed for all Microsoft Windows users. Auqio is the leading audio editing and recording solution designed exclusively for Windows. Auqio Sound Studio, in its simple and intuitive user interface, offers you the fastest way to record sound and create professional quality recordings. For its cost-efficient sound card drivers and advanced time-saving functionality, Auqio Sound Studio has become the standard tool for recording and editing Microsoft Windows applications. Auqio Sound Studio enables you to record sounds that are streamed or recorded over the Internet, straight from the microphone, from your Sound Recorder, from any application, from any device with the right sound card drivers installed on your computer. Auqio Sound Studio also captures even the sounds from your Windows computer or even from your iPod. Furthermore, a native driver for the Auzentech 8051 sound card that also records in WAV file format ensures that Auqio Sound Studio can also be used as a sound recorder. The integrated Sound Recorder feature enables you to record any sound your computer is playing. Auqio Sound Studio also automatically copies the audio data onto the clipboard so you can paste the sound you've just recorded into any other application. Moreover, Auzentech's ISDN driver is fully integrated into the Auqio Sound Studio and is used to record audio from ISDN devices like Skype, MusicMatch, or many other software applications, and enables you to convert a Windows audio file with your Voice Clipboard. Furthermore, if you have a USB microphone attached, Auqio Sound Studio will capture the audio and sends it to the Wave Audio Editor for advanced editing, trimming, chopping and cutting sound clips in 3D, the way professional sound editors do it. Auqio Sound Studio includes the CMDL Support utilities so you can capture audio from the command line. You can use CMDL Support to capture audio from any application, such as the Messenger client, the Voice Recorder or Audio Editor utilities, or even the Windows operating system. The Auqio Windows Sound Recorder is also directly integrated into the Windows desktop and is available to the user whenever needed. Auqio Sound Studio also supports recording over the Internet from your favorite Internet Radio Station. Auqio Sound Studio makes sound recording and editing fun, so that it can be used by everyone who wants to capture any sound. This Visual PPE/Audio
