Now, you can access your Facebook account from anywhere on your computer, thanks to Vibes. Just open the program and wait for the login process to be completed. Then, you'll see that you are logged into Facebook and your profile. In order to use the Facebook account through Vibes, you will have to grant the application access to your account. This is done during the installation of Vibes, when you get prompted for the administrator's password. As a final step, you must click on the Log in with Facebook button on the top left of the window. Vibes will then send you an invitation to Vibes Messenger, as well as your Facebook email address. After this, you can immediately use Vibes to chat with your friends or see their status updates. After the connection to Facebook is done, you can browse through the contacts you have created on Facebook. Note that you can now access all the features that were previously only available from the Facebook website. All your Facebook data is stored on your computer and you can access it from any location. If you do not want to use the Facebook account, you can simply log out. Vibes allows you to enjoy the full functionality of the Facebook website, without having to go through the browser. Facebook feed is a convenient way to get informed about what your friends are doing. You can now make use of Vibes to keep up with your friends' activities, while they are away from their computers or phones! The interface is very easy to navigate, as you can simply click on the Home icon to return to the main page. The application is completely free, without any ads or in-app purchases. Therefore, you
